

Paul has just returned from filming an attempt to break the Guinness World Record for the most amount of cars simultaneously doughnutting.

If your unsure of the concept of doughnutting, this is skill of spinning a car on the spot around its own axis and is often performed by racing drivers after a victory.

Paul was invited by the Guinness World Records programme to help former Blue Peter presenter Konnie Huq learn the technique in order for her to take part in the record herself.

Paul said "Konnie was a natural, she picked up the technique very quickly and after only a small amount of training I was happy that she was good enough to perform the stunt without me in the car"

"This was a great relief to me, as having never set an official Guinness World Record before I really wanted the opportunity to take part in the record attempt myself in my own car"

Find out if Paul & Konnie succeed in their world record attempt on the Guinness World Records smashed programme due to be screened on Sky 1 on Sunday the 3<sup>rd</sup> of May at 6pm.
